

RECORD TAX REDUCTION AT NEW SESSION PREDICTED

Surplus in Debts May Exceed Billion; State Treasurer Under Arrest

Former Controller and Bank Cashier Also in Custody; \$516,000 Involved

WASHINGTON, May 7. (Exclusive)—The greatest tax reduction in the history of the United States will be made at the next session of Congress. Receipts under the present law have run in the millions and the fiscal prophets under the new law predict a surplus of unexpected revenues. The surplus in 1927 will be at least \$1,000,000,000, and the surplus in 1928 will be at least \$2,000,000,000, and the surplus in 1929 will be at least \$3,000,000,000.

UNGUSSER OFF IN NONSTOP FLIGHT OVER ATLANTIC

Five-Ton Plane Gets Ideal Start; Noon Monday Set by Ace for Arrival in New York

LE BOURGET (France) May 8. (Sunday) (AP)—Capt. Charles Ungesser and Capt. Francis Coli took the air at 5:15 this morning for their long flight from Paris to New York. The "White Bird," the French aviators' famous plane, with its load of more than five tons, got away to a splendid start, sailing fast into the air on its great trans-Atlantic adventure.

CRUCIAL HOURS AT NEW ORLEANS

Waters of Mississippi River Reach New High Levels Over Long Stretch

NEW ORLEANS, May 7. (AP)—Driven riotously before the flood crest the waters of the Mississippi had reached new high levels tonight over a long stretch north of New Orleans from Donaldsonville to Angolia.

ARREST NEAR IN FLOOD

Record stages also were recorded at places along the Old River, which empties into the Mississippi north of Baton Rouge, and which is receding flood waters from the Red, Ouachita, Tennessee and Black rivers as well as from the great crevasse and backwater lake spreading in Northeastern Louisiana.

CONFIDENCE EXPRESSED THAT DIKES WILL WITHSTAND GREATEST ONSLAUGHT

In announcing this situation on the two rivers, the Weather Bureau reiterated its warning that every precaution should be taken to guard against the stages above New Orleans with the approach of the crest, which now is south of Vicksburg, approximately half-way between Memphis and New Orleans.

REFUGEE MOTHERS MOURN

Homes, Churches Swept Away by Flood, They Pray for Safety While Other Parents Rejoice

NEW ORLEANS, May 7. (AP)—Mother's Day tomorrow dawned in a valley that a few short weeks ago was a picture of life and light and beauty; a valley that knew happy homes; a valley where bells in little churches and chapels called a people to prayer; a valley that today is the valley of the shadow of death.

HISTORY ROMANCE PROGRESS

Not theirs will be the joy of breakfast in their homes with families reunited, with telegrams or letters from distant ones. Like soldiers when the meal call sounds, they will fall in line and march to the front of the battle.

PLANE HEADS FOR TEXAS

WASHINGTON, May 7. (AP)—The Pan-American flight plane San Antonio was en route today with her crew for San Antonio and is due there Tuesday. She is commanded by Capt. Arthur B. McDaniel with Lieut. Charles Robinson accompanying him.

 For Constipation, Biliousness, Indigestion, Headache, Neuralgia, Rheumatism, Gout, Gravel, Dropsy, Hemorrhoids, Piles, and all other ailments of the bowels and bladder. They are the most powerful and reliable medicine ever sold by chemists or druggists.

Must Women Worry Now About Baldness?

Bobbed Hair Has Caused an Increase in Scalp Trouble Among Women, Says Hair Specialists

WOMAN ventured boldly when she bobbed her hair. What penalty she will have to pay, time will only tell. But immediate consequences are alarming enough. Dandruff is on the increase and more serious scalp troubles are now common among women.

In an exhaustive analysis recently made by Prof. John H. Austin, over 40 years a hair and scalp specialist, a startling fact was revealed. About eight out of ten women examined were afflicted with a serious scalp disorder often mistaken for common dandruff known as "Alopecia Pityriasis," which leads to baldness in from two to seven years.

THE CAUSE OF TROUBLE
It is a scientific fact that the bacteria which spread disease through the scalp are most quickly transferred to a healthy scalp by means of infected comb or brush. Now that the vogue for "bobs" is assured, women are subject to the multiplied dangers of contagion and should heed every warning of scalp trouble.

THE WARNING SIGNALS
Dandruff, falling hair, oily hair, itching scalp, split hair, dry brittle hair are nature's timely warnings that the bacteria which precede baldness have infected the scalp.

HOW TO STOP HAIR DESTRUCTION
The only way to tell the exact cause of hair and scalp troubles is by a microscopic examination of the hair and scalp.

Prof. Austin, who has been at The Owl Drug Co. for the past twelve years, does not trust to guesswork. A powerful microscope magnifies the microbe thousands of times, and once the exact cause is determined, it is then a simple matter to correct the trouble.

FREE MICROSCOPIC EXAMINATION OF HAIR AND SCALP
Prof. Austin will make FREE microscopic examinations of the hair and scalp. Hours 9 a.m. to 5 p.m. Both men and women invited. Private office The Owl Drug Co., Mainline Floor, 5th and Broadway.

NANKING STORY TOLD BY DAVIS

Washington Gives Out His Report on Massacre

Nationalist Troops Alone Blamed for Attack

Impertinent Attitude of Chen Chien Revealed

WASHINGTON, May 7. (AP)—A detailed report from Consul John K. Davis on the Nanking outrage of March 24, last, was made public tonight by the State Department, but it only amplified earlier accounts already received of the attacks on Americans and other foreigners by Chinese Nationalist troops.

The report, dated March 28, leaves no doubt, so far as the evidence available to Davis is concerned, that Nationalist troops alone took part in the attacks and that the curtain of silence laid down by American and British guns was the only thing that saved fifty-two Americans and other foreigners from death in the attack on the Standard Oil Company house.

Davis begins his account with the approach of the Nationalist army on March 22 and the retreat of the northern troops out of the city, at which time there was some disorder and looting, but no anti-foreign attacks. By his advice and with the aid of American commercial residents of the city, 104 American women and sixty-nine children were taken aboard the warships that day, leaving in the city only sixty-eight men, and forty-nine women who, with their nineteen children, had refused to leave.

TELLS OF ARRIVAL
The story then recounts the arrival of Nationalist troops in the city, the beginning of attacks on the British and Japanese consulates and on American missionary posts and the final evacuation by Davis and the Americans concentrated in the Standard Oil Company house near the wall.

The trip was made under fire of soldiers in the streets all the way and one American bluejacket was wounded, but later was brought in by friendly Chinese. In hours which followed Davis withheld his assent to returning the

CHINESE IN GREAT BATTLE

Heaviest Encounter in Three Years is Apparent; Censorship Renders Result Unknown

PEKING, May 7. (Exclusive)—The greatest Chinese battle since the defeat of Marshal Wu Pei-Fu near Chin Tung in 1924 appears to have been fought in Southern Honan Province. The result is indecisive. Thirty thousand Southerners under Gen. Tang She-Chi engaged Northerners under the son of Marshal Chang Tso-Lin for several days.

Although the arrival of 30,000 wounded at Hankow led to reports there that the Southerners suffered a defeat with probable total casualties of 8,000, the fact that Marshal Chang's Peking headquarters does not mention the battle causes the belief that the Northerners suffered greater losses.

Foreign reports place the present positions of the Northern troops at Suiping-chien, fifty-four miles south of Peking, which is seventy miles north of Suyang-chow, where the battle began. Neither side permits correspondents to go to the front, consequently details are impossible to secure, as the area long since has been evacuated by foreigners.

NORTH AND SOUTH FORCES EACH CAPTURE CITY

LONDON, May 7. (AP)—Shanghai advice reaching the Exchange Telegraph Company today said that the Southern Chinese troops had captured Anking, in Anhwei Province, about 100 miles up the Yangtze from Nanking, while Chiang Kai-Shek, the moderate Nationalist (Southern) commander, had captured Yangchow, on the north bank of the Yangtze, east of Nanking. These cities also said that in an-

are of the Chinese soldiers until the house was being raked by bullets. Then he gave the word that brought the shell barrage from the ships, falling around three sides of the house but leaving the fourth side free for the escape by improved ropes over the wall to the water side where the British destroyer Woolsey steamed in close to pick them up. Wounded men and an injury to E. T. Hobart, manager of the oil company plant, hampered the withdrawal, Davis said, but there were no further casualties.

Telling of subsequent events when the naval commanders, headed by Rear-Admiral Hough of the American fleet, learned that the Chinese forces whose ship had arrived after the bombardment, Davis told the "impertinent" rejoinder made by the Chinese commander, Chen Chien, to the first demand made for the safe evacuation of the remaining foreigners in the city. Chen refused to negotiate, saying the question would have to be taken up diplomatically.

LETTER FROM CHEN
A reiterated demand resulted in the eventual rescue of all remaining foreigners without actual resort to further gunfire. Davis transmitted, however, a translation of a letter received by Admiral Hough from Chen in part as follows:
"When our army this morning took Nanking there was a small number of enemy troops, with abundance of machine guns, machine guns and bad character, to take the opportunity of disturbing the peace of foreign residents so that the admiral got a misapprehension and fired on the city."
In his report, however, Davis said he had received 200 instances in which any other than troops of Chen's army in Nationalist uniform had figured in these attacks. Some of the attacks, while holding the Consul himself, at the murals of their pistols, he said, that they were of Chen's "revolutionary army" which did not care what it did to foreigners of any nationality. Particularly the American signalmen who were dragged for the baggage while splinters of stone flew about them as Chinese bullets splattered against the pillars of the porch on which they stood. The conduct of all American and British refugees, he added, was a matter of justifiable pride.

LYBIG FURNISHINGS TO BE SOLD AT AUCTION

NEW YORK, May 7. (AP)—Furnishings of the luxurious home of Mrs. Rita de Acosta Lydig, who is in bankruptcy, are expected to realize at least \$100,000 at auction. A Chinese lacquer screen alone is reputed to be worth \$40,000. The curtains in the boudoir are of gold net. A chaise longue cost \$7,000. A bedspread of blue silk is valued at \$20,000, as much as the bed itself. Mrs. Lydig is now in a sanatorium, having taken twenty-seven trunks of clothing with her.

STREPTHER ACCUSED
SAN FRANCISCO, May 7. (Exclusive)—Ramon Willis, 44 years of age, who is said by police to have a wife in Los Angeles, was arrested here today at the instigation of juvenile authorities. They said the action was taken on stories told by Enid Willis, 15 years of age, the accused man's stepdaughter.

TEN PERMAN FIRMS FAIL
TEHERAN, Persia, May 7. (Exclusive)—Ten prominent firms dealing with Russia have failed. More than 20,000 tons of lower-quality rice grown especially for the Russian market are reported to be rotting because the product was stored for a long period in damp warehouses in Masanderan, owing to the Russian embargo on Persian goods.

HANKOW LAUGHS OVER BLOCKADE

Adviser to Cantonese Says Threat of No Use

Borodin States Nationalists Have Food in Plenty

Russian Called Dictator of South China

LONDON, May 7. (AP)—Michael Borodin, adviser to the Chinese Nationalist government at Hankow, is quoted in a dispatch to the Daily Express today as saying that a blockade of Hankow, about which there have been rumors, could have no effect whatever.

"These threats do not perturb us," he said. "We have an abundance of food all around us. We laugh at the presence of the international junkyard in the river, as we do at the forest of foreign bayonets at Shanghai, which will not with rust before it makes the slightest impression on the great movement which this government leads."

"Tell them it is no use, because there are powers needing trade who will break the blockade. They are negotiating with us at this moment and will bring us anything and everything which we are willing and able to pay—offices, bombs, machine guns, artillery and all paraphernalia of war."

HE'S REAL DICTATOR
The correspondent says that Borodin, who is a Russian, is "virtual dictator of Southern China." He is quoted as making a sharp attack on Chiang Kai-Shek, leader of the Moderate Nationalists with headquarters at Nanking, denouncing him as a "renegade and rebel, who, before the lapse of many months will go the way of all traitors to just and irremovable causes."

"Chiang must go," he added. "He is setting up a government under false pretenses and while he persists in trying to usurp the authority of this government (Hankow) there will be no end of strikes, no end of terror in the country."

"The Hankow government will not attempt to attack Chiang militarily, but will continue to work for the sake of its advancing armies now in to concentrate on Peking, which we shall have no difficulty in reaching within the next three months. The feudalist government of the north (Peking) is dead; we will bury it very soon."

TELLS HIS DUTIES
Borodin proposed that the powers should assist in establishing the Hankow government, asserting that if they believe they have a new regime in Chiang's Nanking outfit, "they are doomed to bitter disappointment."

Explaining his relations with the Hankow government, Borodin declared:
"You have heard, of course, that I fled to India or Russia, or that I took refuge in a hospital, or was dismissed by the Nationalist authorities, but I am still here, and as far as I can see, I will be here for some time to come. It depends entirely on the government. My position is that of an adviser. If they like my advice, they take it; if they don't, they ignore it."

He insisted he was not in the employ of Russia and that he did not receive one penny from Moscow.

THIEVES DESPERATE GRAVES IN BAY CITY

SAN FRANCISCO, May 7. (AP)—Police were asked today to open an investigation of reported thefts of jewelry and other valuables from vaults and graves of San Francisco cemeteries. Graves have been opened in Calvary and the old Masonic cemetery within the past few days. It was reported, and rings stripped from the fingers of corpses and in some cases bones and skulls taken.

GLASS COVERED TOMB FOR SPOKANE MAN

SPOKANE, May 7. (AP)—The dying wish of Anton H. Albert for a glass-covered tomb that will permit the sun to shine upon his features is nearing realization, a year after his death here. While his body is being held at an undertaking establishment here, a monument company has almost completed the unique mausoleum.

AMPICO

The SUPREME TRIBUTE FROM THE WORLD'S RECOGNIZED AUTHORITY
Encyclopedia Britannica

A GAIN the absolute supremacy of the AMPICO in the field of reproducing music is conclusively established—this time by the world's recognized authority.

The Encyclopedia Britannica selects the AMPICO mechanism to illustrate the most advanced principle of musical reproduction and says, "A beauty of playing is possible that was formerly undreamed of."

Before choosing your reproducing piano, read the brilliant article on the Player Piano and its development, on Page 1006, Volume 30 of the New Edition of Encyclopedia Britannica. If you haven't got one you can gain access to it at the Public Library or at our store. It proves that the AMPICO system is the only one which insures an actual and perfect recording and re-enactment of every detail of the artist's playing.

Be content only with the best. For the AMPICO costs no more than the ordinary reproducing piano.

AMPICO in the KNABE

The Ampico reaches its loftiest achievement in the Knabe, for human emotions can find no truer echo than in the supreme tonal qualities of this glorious masterpiece.

Chosen for the official piano of the Metropolitan Opera Company, greatest musical organization on earth; preferred by the great artists of the Concert stage; Knabe tone today is recognized as the most beautiful the piano has ever achieved.

MEXICO CITY, May 7. (Ex-

clusive)—Backed up by squads

of soldiers, agents of the De-

partment of Health imposed

baths on 134,209 persons last

year—many of whom, declares

El Universal Grafico, had never

felt water on their bodies ex-

cept when caught in a rain-

storm—according to figures of

the department of National

Statistics made public today.

The health department also

compelled 18,842 persons to get

hair cuts and hygienically dis-

infectized 100,624 persons and

487,861 garments. The next

campaign, says El Universal

Grafico, will be directed toward

the sterilization of clothing.

providing that any juror who

fails to attend an inquest shall be

guilty of a misdemeanor.

Senate Bill No. 287, by Walter,

providing twenty days' notice

shall be given the legal owner,

registered owner and division of

motor vehicles prior to the sale

of an automobile to satisfy a lien.

SENATE BILL NO. 289, by Lyon,

providing a 50-cent fee for ad-

ministering and certifying to an

oath in municipal courts and ex-

cepting an official person acting

for the Federal government.

Senate Bill No. 291, by Nelson,

fixing the compensation of a com-

missioner in foreclosure proceed-

ings at not less than \$10 per day.

Senate Bill No. 293, by Garrison,

providing that directors of irri-

gation districts under the Irriga-

tion District Act shall provide by

resolution for the payment of all

district assessments in two in-

stallments, the first becoming

delinquent the last Monday

in December and the second on

the last Monday in June.

Assembly Bill No. 804, by Carter,

LONDON, May 7. (Exclusive)—A grave situation is arising in Europe

The key to the situation is that London and Berlin are divided in the main issue of policy to be followed regarding Moscow. Consequently, Foreign Secretary Sir Austen Chamberlain is taking a stand with the French until the extent of the German commitments to Russia is

DETROIT, May 7. (AP)—Setting out his complaints in a seven-page bill of particulars, which was suppressed.

The divorce suit for dissolution of the second wife, Mrs. Doris Mercer Krege, whom he married in 1934, about a year after he had been divorced by his first wife, Mrs. Anna Hayley Krege.

The move marked the third court action in which the couple have been involved. Early in 1936 Doris Mercer Krege brought suit against her husband, claiming \$25,000.00 for her share of the principal investment. The couple who had been living apart, were reconciled after the case was settled out of court.

The second court action transpired when Mrs. Krege six weeks after her divorce from Mr. Krege had sailed for Europe with an announcement that she and Krege were, on friendly terms.

The smudge pot used in Colorado orchards, he considers too expensive and probably not effective here.

ter, Mrs. Kreege announced she will fight the case and in October of 1934 she obtained an injunction from the New York Supreme Court restraining her husband from proceeding with the divorce. Mrs. Kreege is on the grounds that Kreege was not a resident of Michigan. In November Kreege withdrew the suit, but in January 1935 she again, having established a Michigan residence with his sister, Mrs. Sarah Kreege, at Highland Park, filed for divorce. The grounds of parties today, Thomas Long, the merchant's attorney, filed an affidavit with the presiding Judge of Circuit Court stating that Kreege was a resident of Michigan, and obtained an order of publication giving notice of appearance. Kreege has three months in which to file notice of appearance. Kreege met her second wife in New York a short time after she had been divorced by Mrs. Anna Harvey Kreege. They were married four months later. Kreege had undertaken to finance a musical education for her. Mrs. Doris Mercereau Kreege had been married in and is the publisher of a New York society paper.

Five children were born to Kreege and Anna Harvey Kreege. One of them, a daughter, Ruth, attended the father's second wedding.

Attendance from abroad at Kreege's spring fair this year was 3000.

number, just completed, shows a total of 1085 propositions concurred in by both houses during the forty-

scored was 2355, against 2233 in 1958. In the Senate there were 807 bills introduced, of which only 438 reached the Governor. The thirty-three Constitutional amendments thrown into the Senate chamber were reduced to six by the close of the session, while the twenty-nine concurrent and twelve joint resolutions were cut to twenty and nine, respectively, during the course of the session.

The amendments designed a total of 129 bills, but only 540 were given final passage. They also framed thirty-five Constitutional amendments and of these all but two were defeated. Twenty of the thirty-seven concurrent resolutions and half of the eighteen joint resolutions were introduced either on the floor or by the committee of the two houses.

The Wanderer Sedan

The combination of smooth performance and durability with ideal touring comfort and luxury, makes the Auburn Wanderer Sedan a most practical outing car.

It is so constructed that the back of the front seat can readily be let down to make a full length, restful bed upon the soft, comfortable upholstery. Motorists making extensive tours find this feature of particular convenience.

In outward or interior appearance the Wanderer when not prepared for sleeping, is no different than the conventional sedan.

This convenience can be had in all Auburn Sedan models at an added cost of \$50.00.

Come in and see the Wanderer. Ask for demonstration.

KANSAS FLOODS CALL GULLS

Threatened by Farmers Over
Wheat Fields During Wet
Spell

LARNED (Kan.) May 7. (Ex-
clusive)—Attracted by inundated
prairies, flocks of sea
gulls have been seen this spring
at various points in Kansas. At
first it was believed they were
"flood whoppers," come to thrive
in flood waters. But the Kansas
Audubon Society declared they
were sea gulls.

Gull migration across Kansas
is unusual. Salt water is thousands
of miles away. But at least some
of the gulls which were winged
over the wheat fields will be
dipping for fish in the
Bering sea this summer.

NEW DOMINION COMPLICATIONS

Changes in British Empire
Present Problem

Peculiar Situation Develops
Over Crown Agents

Matter Called to Attention
by South African

LONDON, May 7. (Exclusive)—The
changed relationship between Great
Britain and the dominions with
respect to the constitutional status of
the governors-general, established by
the Imperial Conference resolutions
last November, straining the empire
links, practically is working out more
forcefully than the British expected.

Gen. Hertzog, the South African
Prime Minister, has just told his Par-
liament that the British govern-
ment, the Earl of Athlone, after
July 1, next, will cease to be and
in a sense will become a mere repre-
sentative of the British government.

In the case of South Africa, how-
ever, the governor-general is also the
high commissioner and, as such, is
responsible for the control and ad-
ministration of native African re-
serves such as Basutoland and Swa-
land.

Thus, while the position of the
Earl of Athlone with relation to the
South African Parliament will be re-
duced to a formality, the Colonial
Office is likely to insist that he keep
his present responsibilities of high
commissioner. This will make a com-
plicated and anomalous position,
since the South Africans must deal
with the same man as crown agent
in one capacity, and the mere repre-
sentative of Great Britain in another.

July 1 now has been fixed as the
date for changing the status of the
governor-general of the other do-

ORDERS FEET SHINED BUT DOES NOT WANT PUBLICITY

HONOLULU, May 7. (Exclusive)—
A Hawaiian newswoman introduced a
new wrinkle in footweir fashion to
the fellow members of his profes-
sion here, and at the same time en-
terained a crowd of the curious,
when, barefooted and with the dig-
nity of a bank president, he seated
himself in a shoeshine stand and or-
dered the bootblack to shine his feet.

What the occasion was, none of
the crowd could guess. And the boot-
black, as amazed as the bystanders,
seeing no shoes to shine, asked his
patron if he "wanted 'em cleaned."

minions also, after which the com-
munication will be direct from gov-
ernment to government. As a result
of the change no official in any Brit-
ish dominion will be in position to
represent with authority the views of
the British government.

Some anxiety is felt here over the
weakened ties and the question of
developing a closer touch between
Great Britain and the dominions,
such as having the king's sons as
governors-general, is being consid-
ered.

German radio fans increase
German radio listeners now total
1,376,584, and show a gain of 29-
442 in December, the last monthly
data available, the United States
Consul at Berlin reports. German
foreign wireless service increased by
3 per cent over the preceding month,
according to the analysis of this de-
velopment, the gain being due to the
opening of a direct radio cir-
cuit from Berlin to Lisbon, Spain.

Chicago Judge Frees San Diego Bribe Suspect

CHICAGO, May 7. (Exclusive)—Wil-
liam R. Johnson, arrested a short
time ago at the request of authori-
ties in San Diego, where he is under
indictment for giving a \$40,000 bribe
to C. C. Kemper and C. G. Sellick,
former District Attorney and assistant
District Attorney of San Diego county,
was released following a hearing on
a writ of habeas corpus today before
Judge J. J. Sullivan in the Criminal
Court.

Judge Sullivan ruled that under
the California statute providing pen-
alties for bribing an officer, the Dis-
trict Attorney and his assistant are
not classified as officers and the in-
dictment in this classifying them was
faulty. Kemper and Sellick have
been sentenced to terms in San Quen-
tin prison for accepting \$40,000 from
Johnson as the price of acquittal of
his brother Thomas and Hugh Mc-
Govern on a charge of murder.

Johnson and McGovern were ac-
cused of the murder in 1925 of George
McMahon, whom they are charged
with having stabbed to death during
a dispute over the proceeds of several
robberies that they had committed
jointly.

Illinois Gives Up Man to Face Charges Here

CHICAGO, May 7. (Exclusive)—
William D. Russell of Los Angeles,
who was arrested by Chicago police
several days ago on a California fugi-
tive warrant, must return to Los
Angeles to face a confidence game
charge. Extradition papers signed by
Gov. Small were presented in court
today and Judge Peiser turned Rus-
sell over to the Los Angeles officers.

Russell, according to the charges,
obtained \$2500 from C. A. Betzler of
Los Angeles which he said enticed
Betzler to stock in a moving-picture
company which he was organizing. He
stated at the time that he was the
owner of a studio valued at \$80,000.
When Betzler decided to make in-
vestigations he learned that the studio
was a myth and notified the police.
Russell was traced to Chicago and
arrested at a Loop hotel.

SIAMSE CHICKENS HATCHED
DAYTON (O.) May 7. (Ex-clusive)—
Siamese twins of chickadees were
hatched from a single egg at a local
hatchery. They were joined the en-
tire length of their bodies.

Extra Power
that levels hills with ease

The same gesture of ease for the lightest task or the hardest is the distinctive mark of Hudson performance.

Its source is sheer extra power delivered with the same silent certainty and silky smoothness, from a force that would move a knitting needle to the full flood that soars easily up the steepest hills.

And this extra range and activity of power, as everyone knows, are advantages exclusive to the patented Super-Six principle.

With it you get a chassis, engineered to provide safety, continuously and economically, for the speed, power and stamina of the motor.

No wonder everyone calls it the "World's Greatest Value."

a typically American trait

FLACE before you the fine cars of today—inspect them thoroughly. You will then appreciate the Locomobile straight-eight.

Seeing the model "8-66" on the boulevard you will say quite naturally, "What a smart car. It's a Locomobile."

In compliance with frequent requests made by owners, admirers and friends, Locomobile introduced a truly high-grade light weight motor car three years ago. Its success may be best measured by the ever mounting volume of sales. This year's production increase effected a definite saving through quantity purchasing of materials. We pass this along to you in the form of a \$430 price reduction. Locomobile is without doubt the best eight-cylinder buy in America today.

Take a test ride today. The results will be amazing.

Atendiendo a la importancia que tiene el estudio del español en los Estados Unidos, particularmente en esta gran metrópoli tan inmediata a territorio hispanoamericano, diariamente aparece en "The Times" esta sección especial con algunas interesantes noticias de última hora. Tres veces por semana insertamos una lección práctica elemental de castellano, y los lunes encontrará el lector dos lecciones para estudiantes adelantados. A cuantos deseen aumentar sus conocimientos de español les conviene leer esta columna todos los días.

NOTAS TELEGRAFICAS

Pronosticase Una Enorme Reducción de Impuestos

WASHINGTON, Mayo 7.—La mayor reducción de impuestos desde el año de 1921 va a poder hacerse, y probablemente se hará en la próxima legislatura del Congreso. Los ingresos habidos con la ley vigente han sido muy superiores a los presupuestos y han abrumado a los profetas fiscales bajo un alud de recalcitraciones inesperadas. El superávit de 1927 será el mayor, salvo el de un solo año, de todos los superávits anuales registrados desde que la nación volvió a su estado normal. Los ingresos correspondientes al impuesto sobre entradas, lejos de disminuir con las menores cuotas ahora en vigor, han montado a un total jamás alcanzado desde 1921. La reducción de las deudas canceladas \$800,000,000 y acaso pase de \$1,000,000,000.

Desfalco en la Tesorería del Estado de Nevada

RENO (Nev.) Mayo 7.—Un desfalco de \$215,000, que puede llegar a una suma mayor, en la tesorería del Estado de Nevada fue descubierto ayer, a consecuencia de lo cual se están gestando las órdenes de aprehensión inmediata contra Ed Malley, tesorero del Estado; George A. Cole, ex-contralor; y E. W. Clapp, ex-cajero del Carson Valley Bank de Carson City (Nevada). Cole, Malley y Clapp fueron aprehendidos esta tarde por orden del Gobernador Balfour. Se fijó en \$200,000 el monto de la fianza para cada uno de ellos. En México no se conforman con la Cruz Roja

CIUDAD DE MÉJICO, Mayo 7.—La tarea de salvar a los heridos y de socorrer a los muertos después de los secuestros en la ciudad de Méjico ha sido siempre motivo de admiración para los extranjeros a su llegada a la capital de la República. La razón de ello, realmente, estriba en

la costumbre melancólica de importar ideas para ir más lejos en el sentido de la idea importada. Esto es lo que ocurre en el caso de la ambulancia. En todas partes del mundo se concibe la Cruz Roja. En Méjico, sin embargo, una vez adoptada la Cruz Roja, se resolvió que la idea podía ser considerablemente mejorada. De acuerdo con esto, se crearon tres cruces más: la Cruz Verde, la Cruz Blanca y la Cruz Amarilla; y se sumaron pronto se crearon otras dos cruces: la Cruz Escarlata y la Cruz Púrpura.

Un Vapor Visita la Isla de Pitcairn
BOSTON, Mayo 7.—Por primera vez en varios años llegó esta semana a Boston un vapor en cuyo diario de navegación figurase una visita a la isla de Pitcairn, del Océano Pacífico, la cual visita fue hecha con el fin de entregar correspondencia. Este vapor es el buque de carga inglés Port Campbell, y su capitán es un pedáneo de tierra aislada, a 3000 de la más cercana tierra firme, llevó a los doscientos habitantes de la isla las primeras noticias del mundo exterior recibidas por ellos en muchos meses. Pitcairn es un lugar que ha atraído desde hace mucho tiempo la atención de los estudiantes de la humanidad y de los expertos en antropología.

NOTAS LOCALES

Se Revocan las Licencias de Unas Compañías de Petróleo

Uno de los mayores pánicos financieros en la historia de Los Angeles se creó ayer cuando el señor Friedlander, Comisario del Estado un el Ramo de Corporaciones revocó las licencias de las empresas Julian Petroleum Company y California Eastern Petroleum Company después de que la junta de directores de la Bolsa de Los Angeles suspendió la compraventa del papel de dichas compañías debido a un supuesto exceso en la emisión de acciones. Al mismo tiempo, el señor Friedlander anunció que, a fin de proteger a los tenedores de acciones, se estaba gestando el abrir una completa investigación de la situación financiera de la California Eastern, que absorbió recientemente a la compañía Julian.

Un Bandido Fue Herido en Una Lucha a Tiros

Uno de los dos bandidos que penetraron en la Farmacia de Newhall ayer poco antes del amanecer se cree que resultó herido en la acalorada pelea a balazos con los representantes de la autoridad, la cual batalla se sostuvo desde automóviles a toda carrera y a lo largo de un recorrido de unas siete millas. Un sospechoso, que dijo llamarse Arrieta, y quien se cree desempeñó el papel de vigia de los facinerosos, fue aprehendido cerca del lugar de los sucesos y encerrado en la cárcel del Condado por sospecha de complicidad en el robo, ya que, según los agentes, no pudo explicar satisfactoriamente su presencia en aquel lugar.

Mañana Se Iniciará el Juicio de Kelly

Según se anunció ayer en la oficina del Fiscal Distrito durante el juicio de Kelly, a quien se acusa de haber dado muerte al artista de ópera Ray Raymond, se va a tratar con todo detalle de las orgías en que se dice que tomaron parte la señorita Dorothy Mackaye, actriz dramática, y Paul Kelly, actor cómico. El juicio de Kelly por el asesinato de Raymond, que era el esposo de la Mackaye, comenzará mañana a las 2 de la tarde en la sala del juez superior Burnell.

El Funeral de Jetne Será Mañana

Mañana a las tres de la tarde serán los funerales de Haza Jetne, fundadora de la famosa casa de abacería H. Jetne y Cia. El señor Jetne falleció en la casa de su hija a horas avanzadas de la noche del viernes último. Tenía 78 años de edad y llevaba enfermo unas tres semanas.

FLORIDA CITY DROPS EMBEZZLEMENT CASE

WEST PALM BEACH (Fla.) May 7. (AP)—Charges of embezzling \$1,000,000 of municipal bonds and \$9000 in cash from the city of West Palm Beach preferred against E. King Edwards, former City Treasurer, have been dismissed. Edwards, who was released from the city's service April 23, admitted having possession of the bonds and money, claiming he was within his rights in holding them until an audit of his accounts was completed. Justice of the Peace Houghton ruled that no intent to defraud or embezzle had been shown.

CHAMPAGNE MADE OF CALIFORNIA WINE

WASHINGTON, May 7. (AP)—Much of New York's champagne California wine, added to denatured alcohol and charged to make it fizzy, says Assistant Secretary Andrews in charge of prohibition enforcement. He advocates amendment by next Congress of the denatured alcohol act to define diversion of denaturants to the manufacture of beverages a serious crime.

THE PIANO

THE BASIC MUSICAL INSTRUMENT

PERIOD MODELS

In answer to the ever-increasing interest in Period Model Pianos the Southern California Music Company announces a Department of specially designed instruments. This advertisement directs attention to but two of the many attractive Pianos now on display.

The Chickering

in the Classic LOUIS XVI Design

TO the influence of the lovely Marie Antoinette, unfortunate Queen of France, we owe the classic simplicity of the decorative period which has come down to us as "Louis XVI". It is a style which will ever remain one of the most beautiful in all the history of decoration.

The Louis XVI Chickering, in mahogany, shown here, is the simpler type, one which combines perfectly with other periods, giving artistic touch to the room containing it.

Obtainable With or Without the Ampico

This delightful instrument or any of the many other Period Model Chickering may be purchased on the Most Convenient Terms.

SPANISH

CHARM of ARTISTIC DISTINCTION for YOUR LIVING ROOM

HIS EXQUISITE PIANO, designed to bring distinction to the room which it will adorn, is the musically toned

BREWSTER

a piano whose makers have access to the scientific knowledge of piano making of the great house of CHICKERING. The BREWSTER is endorsed by Chickering and sold with the recommendation of Chickering & Sons at the Southern California Music Company FASHIONED for the MODERATE PURSE but glowing with the artistic musical quality of far more costly instruments.

May be paid for over a period of years.

Your present piano taken in exchange.

Southern California MUSIC COMPANY

806 and 808 So. Broadway

STRIVING FOR HEALTH AND CLEANLINESS

To the management of this business the realization of Piggly Wiggly's present position in the world of cleanliness is indeed quite apparent. For months Piggly Wiggly has been striving for the utmost in cleanliness and healthful conditions in its stores.

No Greater Work

According to the Piggly Wiggly idea there is no greater work to be done in the world of food than to surround that great and important industry with an atmosphere of health and cleanliness. Being as it is of such tremendous importance to the country's progress, this food business should be surrounded with rigid measures of sanitation, not only maintained but legally enforced. Piggly Wiggly will fully support Health Officers in any movement designed to keep on improving the standards of the grocery business.

Living Standards Improved

Other standards of living have been steadily improved for many years, but we conscientiously believe that in the last three years a greater improvement has become apparent in the grocery field than was evident during the previous half century. The advent of the chain store system has certainly injected a greater efficiency into food distribution, and Piggly Wiggly is glad to have been among the leaders in this movement.

Appreciation

The Piggly Wiggly Management wishes to thank Dr. Parrish and Dr. Pomeroy of the City and County Health Departments, as well as the health officials throughout Southern California, for the attention and interest they have taken in the work being done by our Health Service Department.

Radio and Groceries

Radio KRON Piggly Wiggly Station, Long Beach, is on the air daily with entertaining programs. Have you had the pleasure of hearing the "Piggly Wiggly Haymakers" every Monday night at 7:30? Tune in, folks, we will appreciate your audience. In addition—the management will appreciate very much any criticism or suggestion you may wish to send in.

Coffee

For summer menus a delightful beverage and a certain thirst-quenching is iced coffee. We have noticed a decided preference for New York's High Grade in connection. It seems to have that certain richness that makes iced coffee a delightful

Health Official OK's PIGGLY WIGGLY Cleanliness

Dr. George Parrish, Health Officer of the City of Los Angeles, finds Piggly Wiggly stores bright and clean and the merchandise new and fresh.

"Such a vast improvement in the handling of food will certainly command the respect and patronage of the food buying public," said Dr. Parrish.

We are mighty happy indeed to have reached a standard of cleanliness so outstanding in the critical eye of one of the country's well known authorities on health problems.

SHOPPING FOR HEALTH AND CLEANLINESS

The management of the Piggly Wiggly stores is constantly striving to improve the standards of living in the community by offering the best quality food at the lowest possible prices.

Greater Work

The Piggly Wiggly stores are constantly striving to improve the standards of living in the community by offering the best quality food at the lowest possible prices.

STRAWBERRIES

Yes, these wonderfully luscious berries are right in season this week, for the first crop! Their presence lends a wonderful change to the dessert course, and sharpened appetites will be waiting for a toothsome treat. By the way, the Piggly Wiggly company is furnishing Piggly Wiggly with thousands of beautiful folders with six new and dainty ways to serve strawberries. Get your copy at the checking stand.

FRESH GREEN GOODS

This season is providing some wonderful green goods from California's famous gardens. Asparagus is coming in now right in top season. String beans are also prime at this time. For your salad crop local cucumbers and young tender cabbage is also coming in from local fields. Italian squash is arriving daily in carloads. Local lettuce is very wonderful right now and the medium size hard heads are selling rapidly at our established price of 10c.

THE LATEST NEWS OF THE DAY

Piggly Wiggly joins in the universal acclaim of Mother's Day, wishing well to Mothers everywhere, honoring them, greeting them—
No sweeter word, no finer meaning
Brings to my face a glad smile
Than the old, familiar, tender
one—Mother.

Five New Babies

The store has been mighty busy taking care of the big family of Piggly Wiggly during the week. Five bright new faces opened at five convenient locations. These new clean Piggly Wiggly stores are now bringing the convenience of this large food institution to about 1000 new families this week. The locations are: 127 N. Pacific Blvd., San Pedro; 1826 W. 54th, Los Angeles; 1801 S. Normandie, Los Angeles; 1117 Seville St., Southgate, and 37 Pier Ave., Hermosa Beach.

We wish to express our appreciation to the hundreds of thousands of new and old friends who patronized our stores last week. Piggly Wiggly is growing by leaps and bounds, keeping pace with Southern California. Sales for April were over 100% greater than they were in April, 1925. We shall certainly strive to merit this splendid confidence of the food buying public, with a sincere endeavor to steadily improve the standards surrounding food distribution.

Same Prices Everywhere

The ability of Piggly Wiggly to sell its merchandise at Los Angeles prices in San Bernardino, Orange and Riverside counties is meeting with a great deal of approval. It is a source of much satisfaction to Piggly Wiggly customers in Santa Ana, San Bernardino, Riverside and other cities to be able to buy their groceries at Los Angeles prices. This is just another step forward in the Piggly Wiggly operation policy and you shall find these prices effective in all stores operated by the Piggly Wiggly Western States Company—May 9th to May 12th, inclusive.

Limited Quantities

Many times competitors find that Piggly Wiggly's retail prices are less than they are paying their wholesalers for the same merchandise. It is necessary, therefore, to limit quantities. We want customers to benefit through our large buying power, but the right to limit the amount purchased by any one customer must be reserved for our own protection.

Dina-Mite

If you have never tried Dina-Mite cookies or tucks you will be pleased with the results. Using Dina-Mite health cereal, raisins and nuts, produces a very appropriate cookie that appeals to the appetites of children and supplies at the same time the necessary roughage for their more vigorous exercise during the spring and summer months. Dina-Mite health cereal may be served in ten different ways. Recipes on the package.

Brush

Here's an opportunity to get a high grade brush that is very pleasing to the skin as well as cleaning. This brush given with the purchase of three bars of Jap Rose soap for 50c. This is considered a \$1.30 value and if you would like a handy brush for the bath room—take advantage of this special offer this week.

All for 59c

Wagons

School is about over and the little folks will be spending their hours at play. Nothing contributes more to the steady healthy growth of young children than vigorous play. Most children possess a large amount of nervous energy that should be expended through exercise. Every child enjoys rolling along in a "Red Wheeled Wagon" and Piggly Wiggly is offering this week one of the finest coaster wagons ever built for the purpose.

They are \$4.85

Chop Suey

With the warmer weather, appetites are changing and require new and appealing dishes. We suggest that you try Mandarin Chop Suey. This is a product that is enjoying a constant sales increase because it is very pleasing to those who enjoy a Chinese dish for a change.

No. 1 tin—32c

Fluffo

With your lighter baking and dainty pastries we suggest that you consider the use of Fluffo, a shortening that is really producing remarkable results. The success of dainty pastries depends largely upon the shortening, and we recommend this high grade rich, creamy vegetable oil product.

1 Lb., 25c
2 Lb., 47c

Morola

Sweet Morola is a high grade oleomargarine manufactured right here in Los Angeles where it is always delivered fresh to Piggly Wiggly ice boxes. Morola is a very satisfactory spread for sandwiches, and on account of its reasonable price should appeal to the economical housewife.

Ebell Head Calls Session Here to Form New Body

BY MYRA NYE
"Times" Staff Correspondent
SACRAMENTO, May 7. (Exclusive) Today was the last day of the convention of the California Federation of Women's Clubs. This also was the last State convention ever to be held with all the districts participating. Division is imminent. Mrs. William Head of Los Angeles Ebell has called a meeting for tomorrow in Los Angeles Ebell clubhouse to present reasons and take action for separation. This is the second time in the history that Ebell has withdrawn from the State Federation.

"We have been sorry many times while we were a part of the State Federation. We were glad once when we were out and that once was all the time," said Mrs. Head. The Friday Morning Club will confer on withdrawal. Wednesday the Women's Club of Hollywood will definitely withdraw if action is in line with telegram from the membership sent here to Mrs. Orville Buntz, the president, statements by leaders and the

YAQUI WARRIORS INTERNED

Thirty-seven Who Crossed Arizona Border Put Under Guard of American Troopers

NOGALES (Ariz.) May 7. (P)—Thirty-seven Yaqui Indians of Mexico, well armed but half starved and poorly clad, who surrendered last night twenty-five miles west of here in Bear Valley to a United States border patrol, tonight were held at Camp Stephen D. Little pending an investigation of their crossing to the border.

The Indians surrendered to the border patrol shortly after dark. They were taken to a tree on the main highway. Many Indian rebels, the exact number being unknown, have been executed during the last week following the ambush and massacre of Mexican Federal troops last Saturday night. Juan Barracas, 18 years of age, a Mexican youth, was captured by Federal soldiers yesterday. He was said to have been carrying messages from Chief Luis Matias of the Sonora Yaquis addressed to rebel allies and having to do with ammunition-running across the border. Barracas was sentenced to death but a stay of execution was granted.

Three shipments of ammunition, one of 15,000 and two of 10,000 rounds each, have been confiscated during the last three days, according to Mexican customs officials.

They probably sided with the northern districts their accounts in their papers demonstrated the just cause of Los Angeles women. It is lamented that the northern women were not more fair in according to their requests, however, and I deplore the separation of the Federation."

DELEGATE INSULTED
"Are you from Los Angeles?" asked a Sacramento Valley woman of Mrs. E. B. Lathan, and when the latter replied in the affirmative the hostile delegate said: "I should think you would be ashamed of yourself. You'd better go back to Los Angeles, that dirty go-around made hideous by a mob of real estate men, and never come back."

"This insult, though extreme, is in line with the treatment accorded Los Angeles women the first three days of the convention."

Mrs. Grantland Beaton Long, past president of Ebell, was instrumental in raising nearly \$800 from the delegates for the Mississippi flood sufferers, she announced last night at the twilight supper given by the Tuesday Club of Sacramento. At the last formal session yesterday Mrs. Mary Gibson presented her history of the State Federation, giving the first copy of the press to Dr. Maria A. Bertola, president, and the second to Mrs. Robert J. Burdette. "It was very selfish," said Mrs. Edwards-Turris of Los Angeles, "that the history should be finished and presented at the last session ever to be held by the State as it was."

Mrs. W. A. Fitzgerald urged that club women adjourn before attempting to legislate. Mrs. Sidney H. Exley reported for the board of trustees. Mrs. Walter Tindall, Mrs. Edward Dexter Knight, Dr. Aurelia Emory Beinhart and Mrs. Rose V. S. Berry, National Federation art chairman, were speakers.

Members of the Emeritus Club were hostesses at a reception at the Crocker Art Gallery for Dr. Bertola and Mrs. Berry before the sunset supper was served in the Memorial Grove, Capitol Park. Today about 800 club women, including twenty from Los Angeles district, visited Grass Valley and Nevada City, the oldest gold mines in California at Placerville, and another group took a trip down the Sacramento River.

SHANGHAI COURT CONVICTS HUSAR

Former Federal Attorney to be Sentenced Tomorrow

Official Branded as Tool of Huge Opium Ring

Charges of Los Angeles Wife Lead to Downfall

SHANGHAI, May 7. (Exclusive)—The United States government won an important victory in the United States Court here today when it secured the conviction of Leonard Goodwin Husar, former District Attorney, on a charge of embezzlement of government property and disposal and destruction of police records and evidence pertaining to a gigantic international opium ring with ramifications reaching around the world from Shanghai to Peking. The decision was handed down by Judge Milton D. Purdy of Minneapolis this afternoon. The judge stated:

"I reach the conclusion that Mr. Husar is guilty on several counts and that he will also pass sentence on the local American lawyer, Neil McKay Heath of Chicago, convicted as Husar's accomplice."

Husar's attorneys, William S. Fleming and C. S. Franklin, immediately announced their intention of appealing the case to the California Court of Appeal.

Husar resigned from his position as United States District Attorney here last November at the request of the State Department, following charges lodged in the San Francisco courts by his wife, formerly Mary Joe Grubb of Los Angeles, in connection with her divorce proceedings. Mrs. Husar charging that Husar accepted a bribe of \$25,000 in gold from the opium ring for suppressing evidence.

HELD HIGH POSITION
Husar was appointed United States District Attorney here in February, 1922. He has been prominent in the American activities in Shanghai, including the Legion branch of the Shriners. His conviction is the result of a long investigation conducted by the American authorities into the ramifications of the opium ring, said to extend from Shanghai to Europe and Turkey, and including Geneva, Hamburg, Constantinople and Vladivostok.

The American authorities chiefly responsible for his conviction include Clarence Gausch, United States Consul here, and Martin Nicholson, connected with the United States Treasury Department in Washington, and George Sellett, present District Attorney, a native of Illinois.

MAUSOLEUM TO COST \$270,000
ALBANY (N. Y.) May 7. (P)—Miss Helen H. Bettsinger will provide that nine-tenths of her \$300,000 estate of \$270,000, shall be used for the erection of a mausoleum on her estate, a lot at Pt. Plain, twenty-five acres. The rest goes to a hospital, a church and an art museum.

ARKANSANS RAP "HICK" NAMES

Progressives Form Association to Free State of Impaled Repeach

ARKANSAS CITY, May 7. (Exclusive)—Arkansas is seeking to lift itself from the opprobrium of "hick" names. The movement is being sponsored by progressives in Northwestern Arkansas, who are forming "Associations for the Elimination of Unchic Names."

For years the State has been ridiculed, with barbed, substituted on corn pone and possum. The rest of the world chuckled at the backwoods of Arkansas. Then there came modern highways and the discovery that the soil was bounteous in production of cultivated crops. Modern agricultural methods were adopted.

Tourists began to take notice of the beauty of the Ozarks. With all these resources at hand, the progressives seek to replace such names as Possum Ridge, Skunk Hollow, Dog Town, Loafers' Glory, Starvation Ridge and Barren Rock.

Mrs. Coolidge Value to Party Put at Million

WASHINGTON, May 7. (P)—A value of \$1,000,000 to the Republican party has been placed upon Mrs. Calvin Coolidge.

In a speech before the women's universal alliance, Miss Vera Bloom, daughter of a New York Democratic Congressman, evaluated Mrs. Coolidge as that amount and declared: "Her grace and charm are real assets in the White House and contribute much to the prestige of the administration."

Mrs. Mabel Walker Willebrandt, Assistant Attorney-General, was held to be the most important woman in public office and Mrs. Nicholas Longworth, the former Alice Roosevelt, as the woman who could do most for her sex if she consented to run for Congress.

WHALE BITES CABLE TO ALASKA IN TWO

WASHINGTON, May 7. (P)—These were whales of bites. The core of the Alaskan cable is covered with gutta serena and iron armor, and it is hard to cut it by machinery, but a whale bit it apart in eight places and lacerated sixteen feet of it with its teeth, necessitating the replacement of eighty feet. The cable ship DeWood found the whale, twenty-eight feet long, trapped in the coils.

GRAIN FUTURES TRADES HALTED

Chicago Board Curtails Pit Operations

Action Inspired by Fear of Legislation

Drastic Action by State Legislature Likely

CHICAGO, May 7. (P)—With the specter of a State licensing bill haunting it the Chicago Board of Trade moved today to curtail its operations pending the outcome of the legislative activity. Under a resolution approved by the board of directors trading in grain futures for delivery beyond September was suspended.

State control of "pit" operators, provided for in the Keatinger bill, which has passed the Senate of the State Legislature, would prevent the board from successfully performing a service in the marketing and distribution of agricultural products, the directors stated.

The effect of today's action is to prevent resumption of trading in December future contracts which usually begins at this time of the year. Such contracts might be jeopardized by unusual legislation, members explained.

Legislature governing grain trading began several months ago with the creation of a House investigating committee. This committee has been delving into the affairs of the defunct Grain Marketing Corporation, organized in 1924 to relieve depression in grain growing States. The Keatinger bill was introduced since the House committee began holding hearings.

"Now is as good a time as any to decide whether Illinois wants to retain the central grain market," John A. Bunnell, president of the Board of Trade, declared. "Farmers and business men have as great an interest in the outcome as the grain trade."

Newspapers and individual traders have declared that passage of the Keatinger measure will drive brokers out of Illinois.

"The Board of Trade already is under rigid supervision by the Federal government," Bunnell asserted. "The lines are drawn so tight that at times much of the investment and speculative interest necessary to carry the farmer's grain is lacking. The drastic Keatinger bill, entangling the exchange in State politics, would place us at a distinct disadvantage with markets in other States."

UNIONS WANT AIR FREE

The American Federation of Labor, according to Edward N. Nickles of WCPA, Chicago, wants a general division of time, a limitation of power and the use of the odd kilocycle allocation to obviate certain hydrodynamic whistles. He said, the unions are opposed to the principle and practice of property rights in the air, maintaining that this medium must be developed and utilized for the benefit of all people and not made a source of profit for corporation, private and political interests.

PREDICTS VENGEANCE

Indians Foresee Trouble for Archeologists at Puye Ruins Work

SANTA FE, May 7. (Exclusive)—Death will avenge the dead who sleep in the ruins of Puye in Santa Clara Canyon north of here.

Archeologists who are superintending excavation of the ancient ruins and the establishment of the field museum of the School of American Research will feel the weighty hands of the ages.

Such is the prediction of Santa Clara Indians through their speaking man, Severo Haraño, aged councilman and lon priest.

"Puye is sacred to us," he declared. And he recounted instances of violence, death, misfortune attending Santa Clara men who worked for archeologists in the ruins.

Meeting Announced of Film

CHICAGO, May 7. (P)—A group of 200 leaders of the film industry will meet here tomorrow to discuss the proposed legislation of the National Film Board of Motion Pictures.

Admission of the National Film Board of Motion Pictures will be held at the Waldorf-Astoria Hotel, New York City, tomorrow.

Joe Lasker, president of the National Film Board of Motion Pictures, will be the guest of honor at the meeting.

ORPHANS TO BE WARDS OF OPTIMISTS

Hollywood Club to Stage Benefit Friday in Aid of Practical Charity

Eight orphaned "barren" boys with cheeks of tan and little more than the matter of a few years to be the direct beneficiaries of the "lucky day" entertainment to be staged by the Hollywood Optimists Club the night of Friday, the 12th, at the new Hollywood Bowl auditorium.

Already a cluster of brilliant traditions, including the annual "lucky day" entertainment, the Hollywood Optimists Club has just received the approval of the Los Angeles Board of Supervisors, which has pledged their endorsement to this practical and made daily.

Autographed volumes by all the authors of boyhood are among the donations, thanks to the cooperation of the publishers of the American Boy and its companion, the American Girl, and the publisher of the American Boy and its companion, the American Girl, and the publisher of the American Boy and its companion, the American Girl.

The Hollywood boys' lodge is the second institution of its kind to be founded by this organization. The first was the Hollywood Optimists Club, which was founded in 1917.

BOY AMAZED AT HEALTH WORK

Student Surveys Activity During Week

Arriving this morning on the Chief, Harry D. Brown, Hollywood pageant master, who is in charge of the spectacular electrical pageant for the Shrine convalescent at Atlantic City in June, comes from the resort city for a flying visit to his Hollywood headquarters. He is bearing invitations to picture stars to participate in the big international season of the Shrine.

On Monday the messages, signed by the Mayor and other city officials of the eastern resort city, and by Shrine of International Renewal, will be delivered to the screen luminaries, requesting them to make the trip to the gathering in the East.

Brown will hold conference with studio executives on the design and construction of floats, add to his mammoth electrical equipment as quickly as possible and then rush back to Atlantic City.

WORK ON CABLE TO BE STARTED The Pacific Telephone and Telegraph Company will soon begin the installation of long-distance telephone cable between Lankershim and San Fernando. The new cable, 31,040 feet in length and containing 12,000 pairs of telephone wires, will require an expenditure of approximately \$600,000. According to present plans the cable will be ready for use by August.

Long without the service of the health department, according to David Fox, Roosevelt High School city health officer during Boys' Week, Young Fox spent the entire week making a study of the activities of the different branches of the department. He was most interested in the health and sanitation division and its work of preventing disease.

While making the rounds of the day with Director Swager of the Bureau of Sanitation and Housing, the boy city health officer was convinced that disease-prevention methods save thousands of lives here yearly and a half of this work would mean that a large part of the city would be wiped out in a short time.

MAY STORE CONDUCTS FIELD DAY Company Holds Athletic Competitions for 300 Boys on Roof Garden

International Boys' Week was observed yesterday by the May Company with a field-day athletic competition on the roof garden of the store in which more than 300 boys took part. The contests were held under the supervision of Wallace Stockton, physical director of the city.

In the archery contests for boys from 8 years of age to 14, Phil Snodgrass of 427 Mariposa street was awarded first prize. John McMillan of 1644 Dunsmuir avenue, won the quail-shooting competition. The putting event was won by David Miller of 1927 West Thirty-eighth street. Basketball shooting proved a snap for Buster Davis of 3013 North Broadway and he snapped up first prize. Elmer Matel of 2185 Bellevue street ranked first in the egg and spoon competition.

The off and on show competition was captured by Nathan Linden of 1643 North Talmadge street and Morris Chapman of 512 Amethyst street. Tom Dutcher of 801 North Fifth street won the fifty-yard dash in the class of 8 to 10. The 11 to 14 fifty-yard dash was won by Jack Williams of 844 Beachwood Drive. Second honors were awarded to Fred Green of 1643 Fifty-sixth street.

Winning teams of the wheelbarrow races included Fred Green and Ernest Buckman, first, and George Lommon and Thomas Norrind, second. High jump honors were taken by Paul Dine of 6378 Belmont street.

May Company officials presented the winners with silver cups and other prizes as trophies of their prowess.

LECTURER COMPARES GHANDI AND MUSSOLINI Discussing the methods and merits of Mussolini of Italy and Ghandi of India, in an address at the City Club yesterday, Lal Chand Mehra, a lecturer of the University of California Extension Division, declared that while both leaders are engaged in the efforts to uplift their people, "Ghandi presents the way of love and nonviolence as the only way that belongs to the human being. Mussolini refuses to recognize the fact of liberty," said the speaker. "He contends that the state is not for the individual but that the individual is for the state. He is ready to bring about order in his country by use of force. Ghandi's ideal is not always understood and that is why there is bloodshed, hatred and war. He continues to say, 'Force of love will continue for ages to be the challenge of life, but I firmly believe that India will prove to the world, before long, that love is the only surviving power of true greatness.'"

MANAGER OF ROCK COMPANY RESIGNS The Southern California Rock Products association has announced the resignation of its past president, Clinton B. Rogers, from the management of the Reliance Rock Company. Mr. Rogers is returning to the cement industry and will have charge of western sales for the Atlas Portland Cement Company at Chicago. Joseph Rittler will succeed Mr. Rogers as manager of the Reliance Company here. A farewell dinner is being given by the rock producers to Mr. Rogers at the Jonathan Club, Tuesday evening.

TRANSPORTATION MAGAZINE OUT The first number of "Transportation," a monthly magazine, appeared in Los Angeles this week-end. It is to be devoted to steam and electric railroads, automobiles, bus and truck, aviation and harbor developments. It is owned by Harold A. Smith, formerly president of the Railway Review, Chicago. Offices are in the Pacific Electric Building.

Educator of Queensland Visitor Here

Rev. Walter Cain, Catholic educator from St. Stephen's Cathedral in Brisbane, Queensland, was a Los Angeles visitor yesterday for a few hours. He is coming here to board the steamer Calcutta for the Hawaiian Islands.

"I have come half way around the world from Queensland to study and inspect your schools and educational facilities," said the visitor. "I have been greatly impressed by what I have seen. We are patterning our work in the antipodes after yours in many respects and I believe we are contributing something to your institutions."

In his brief visit to Los Angeles and Southern California, Father Cain found much to remind him of Queensland. He told ship news reporters on the Calcutta.

"Brisbane has everything you have here in California excepting only the climate. Our climate is very much like yours and so are our other geographic and botanical features."

Rev. Mr. and Mrs. Kerr, who live at 3081 East Sixth street, are not so particular about the blue lumberjack, but they certainly would appreciate the \$55 finding its way back to the Kerr household in some manner or another. No questions will be asked.

The lumberjack was taken from the seat of Kerr's truck while he was obtaining names of witnesses after a traffic mishap between 2:30 and 2:45 p.m. yesterday.

SCHOOL TO HOLD FETE FOR HOSPITAL BENEFIT PROCEEDS OF AFFAIR WILL BE USED TO EQUIP ORTHOPEDIC OPERATING ROOM

Miss Grace Fulmer's school, 1650 West Adams street, will have its annual May fete Saturday afternoon, the 21st inst. The proceeds of the affair will be used to equip the new orthopedic surgical operating room at the Children's Hospital.

On the program will be the operetta Cinderella, with Miss Frances Barrio as the heroine; a puppet show and a motion picture of the school activities. Booths decorated to illustrate popular fairy tales will sell food, candy, punch and tea. There will be a fortune teller. Everything in the booths has been contributed, it was said, so the entire proceeds of the sale will go to the hospital.

STUDENTS TO GIVE SHAKESPEARE PLAY For the benefit of the scholarship fund a cast of fifty students of St. Mary's College will present Shakespeare's "A Midsummer Night's Dream" Tuesday afternoon and evening at the Moss Theater, Glaucon avenue and Moss Drive. The presentation will be under the direction of Miss Lillian Fitch. Patronage includes Bishop John J. Cantwell, Mr. and Mrs. E. L. Doherty, Charles Wakefield Chanman and M. J. Connell.

FILM TO SHOW WORK OF Y.M.C.A. SCHOOL Utilizing motion pictures to acquaint those attending with the present work of the institution, the first reunion dinner of the Los Angeles Y.M.C.A. Institute will be held at the downtown "Y" on Tuesday evening, the 10th inst. A film of the activities of many classes conducted by students and officials of the "Y" schools.

JUST A GRAY TOMCAT BUT OWNER WANTS IT He never won any ribbons for pedigree but Tommy was a regular gray cat, just the same, and ever since three weeks ago when he left home, hearing no note of explanation, his owner, Mrs. W. O. Wood of 2223 Spaulding avenue, has been about sick over it. She is so solicitous over the return of her gray cat that she has offered a reward of \$20.

OTHER LUNCHEON SETS LIKE THESE, except that the cloth is 54x54 inches, at \$27.50.

TRANSPORTATION MAGAZINE OUT The first number of "Transportation," a monthly magazine, appeared in Los Angeles this week-end. It is to be devoted to steam and electric railroads, automobiles, bus and truck, aviation and harbor developments. It is owned by Harold A. Smith, formerly president of the Railway Review, Chicago. THREE TRAFFIC RULES GIVEN

Serg. Johnson Gives Daily Message on Driving Over Radio

Education for the ignorant discipline for the willful and development of self-government in traffic to a high degree, was urged by Serg. Johnson of the Bureau of Public Safety in delivering his daily message of precaution over Radio KJL last night.

"In the prevention of traffic accidents the burden of correction must not be borne by the motor-vehicle 'drives alone,' the sergeant concluded."

BUILDING ENGINEER PLANS STUDY HERE R. T. Titus, building engineer associated with the West Coast Lumber Trade Extension Bureau, Seattle, Wash., is in Los Angeles and will remain here for the next two or three weeks. He intends to make a series of special building studies for his organization.

MORIARTY TO SPEAK Dr. W. D. Moriarty of the University of Southern California, college of commerce, will be the chief speaker at the luncheon of the Pot and Kettle Club to be conducted at the club headquarters next Tuesday. "Better Merchandise" will be his subject.

Huge Increase in Los Angeles Phone Service

During the first four months of 1927 Los Angeles had a growth of 11,000 telephones, 1800 more than it gained for the same period last year. The largest monthly gain thus far this year was in February, when the exchange increased 3400 telephones.

The increase during January was 2891; March, 3428, and April 1478. The Los Angeles exchange now has 222,000 telephones.

UNKNOWN AGED MAN KILLED UNDER TRAIN A man believed to be Frank A. Field, 96 years of age, and said to have been a Pasadena resident, threw himself under an inbound Oak Knoll train of the Pacific Electric yesterday, meeting almost instant death, according to police reports. The body was taken to the undertaking establishment of Tree & Warren, Pasadena.

HUSBAND WASTES NO TIME IN STARTING SUIT James W. Robertson waited no time. He filed suit for a divorce from Melvina Robertson yesterday. In his complaint he stated that he had found her with another man the night before. The suit was filed by Attorney Orlin H. Jones.

CLUBS TO HOLD JOINT MEETING Members of the Junior Sororities Club will meet with the parent organization in a specially arranged program to be conducted in the music room of the Biltmore at noon, the 10th inst. Hostesses for the occasion will be Dr. Minnie Preston, Hildagard Cramer and Marjorie Loe. Officers of the Junior Club will act as assistant hostesses.

Chamber Data on Southland Crops Ready

The annual statistical number sent Southern California crops issued by the agricultural department of the Los Angeles Chamber of Commerce has just been completed and is now available for the public.

It contains a wealth of information in its forty-eight pages. Copies may be had by communicating with the secretary at 1181 South Broadway.

AIR CHAOS FAST CLEARING UNDER NEW REGULATIONS

Broadcasters Doing Their Part; Much in Way of Improvement Up to Radio Public

During the tremendous mass of detail and policy work of the new Federal Radio Commission the air chaos is rapidly clearing in many parts of the country. Wave jumpers have been returned to their old channels, unlicensed sets have been put off the air and those stations which have taken it upon themselves to increase power have been cut down by the new radio group.

There has been a decided tendency, however, to throw the entire burden of the blame on the poor broadcaster. He is assailed right and left by well-meaning radio fans and radio publications who try to lay blame for the present muddled condition on the radio stations.

While to a considerable extent they may be at fault, there is another side of the question. Many radio enthusiasts may not entirely agree with these ideas, but there is so much truth in what I am going to say that broadcast fans will see the other side of the matter.

The broadcast studios fully realize and recognize their duties and responsibilities in practically every case. They have not tried to sidetrack, but at the same time the radio fan, too, has a duty and responsibility which are too serious realities to recognize.

LISTENERS' DUTY
If the radio stations put a good program over the air the fan ought to do his part and have a good set to which to receive the broadcast. These programs of the ether realm are not like printed matter to be read when the time is felt. They are like a good meal to be digested. The radio fan wants his set to be perfect in first-class shape and without distortion, howls and shrieks, and in a perfectly audible manner.

There are thousands of alert radio fans, however, who are struggling along with poorly fashioned home-made sets, with "bottle" tubes, unsatisfactory parts, obsolete sets and inadequate servicing.

There is little question but that the average broadcaster tries to do more than his bit. He meets the public considerably more than half way. The studio staffs are conscientious. They do their best to render quality programs in every way possible, although perhaps the listening public does not always understand the various questions of policy connected with such arrangements.

The mechanism of the transmitting outfit is always kept in the best working order. Innovations are tried from time to time to keep the set up to the minute and the equipment and to continue the output of programs at a standard satisfactory to all.

HEAVY EXPENSE
It costs a huge sum of money these days to install, operate and keep a radio station working at the highest pitch of efficiency. Radio enthusiasts and handily paid studio staffs are not overpaid. There is rent for the studio, operating room and reception room. There are salaries for office personnel; bills for telephone, telegraph and other services; the cost of special broadcasts; immense sums of money annually to the Society of Composers; and the cost of the station itself. These sums of money run into the thousands and are the case of good-will stations which are not operated on a commercial basis. The entire amount represents a liability on the ledger from the perspective of what the amount of good will may be in terms of friendship. On the part of the station, however, there is, of course, the asset of charging for time and helping to keep the other balance.

Not more than two or three fans in a hundred can realize or visualize the enormous expense of a transmitting station and office force. In the matter of request numbers, for instance, hundreds of folks run to the telephone and call for a favor. The number. Then they run back to the receiver and immediately expect to hear their name over the air. Most stations have discontinued this practice entirely, but it is still done on certain commercial programs.

ONE TABULATION
On these broadcasts one station recently kept a tabulation through the telephone company. There was an average of 254 calls an hour on a single line. Of that number the radio assistant could handle but 100 and the studio staff could handle the rest. It is a physical impossibility for an orchestra to play more than that number.

When theater-goers faunt over to the platform they pay their money whether they like the performance or not. But with radio, the audience pays nothing, takes all the program of the evening in, and thereafter begins to formulate ideas about how a radio station should be run. It is true that when folks pay for a thing they appreciate it all the more.

As to the sale of radio receivers it is true that the saturation point is nowhere in sight. But the market is developed almost, or the sales resistance has been rather pointed. The fact remains that fans are using old sets and styles, type way out of style, home-made outfits and so forth.

The radio manufacturer helps support stations in an indirect way. Many of them also present commercial programs from sundry stations. One of the obvious ways by which the radio public can do its share is to keep its set up to date.

This spring broadcasting of broadcasters by the new radio commission will mean a good deal in clearing the ether channels. The ether realm, but not all of the air chaos is due to the transmitting stations.

It sets are modern and serviced satisfactorily much of the reported conflict of program reception will prove a myth. Not all of the blame in this spring clearing lies with the broadcasters.

RADIO DEMANDS NEW APPARATUS

Use of Light Current Points Eliminator Need
Available Types Discussed by Experimenter

Filament-Rectifier Appears Most Practicable

BY CHARLES GOLEPAUL
The success of the B-eliminator has naturally had its echo in the insistent public demand for an eliminator, as well, for this is the day of socket power operation in radio wherever there is an electric-light circuit to be harnessed for the family's entertainment.

These methods have so far been advocated for solving the A-eliminator problem, two dealing with genuine A-eliminator practices, and the third, which happens to be the most popular at the moment, dealing with a practical substitute.

First, there is the low-voltage, high-current rectifier, such as the Tungsar, Q. S. Rectifier, New-Ray, Thompson A. Cartridge, and others, capable of rectifying and smoothing out a heavy current with the aid of suitable transformer and a filter system.

Second, we have the high-voltage, low-current rectifier, and the newer gaseous rectifiers, as well as the filament-rectifier. These A-eliminators are really extra heavy duty B-eliminators with sufficient output to operate a number of vacuum tube filament connected in series to take advantage of the high voltage available. In addition to the plate requirements of receiver and amplifier, this method has the advantage of reasonable-sized chokes and filter condensers. This arrangement is a complete solution of the A-eliminator problem.

Third, we have the erroneously called A-eliminator making use of a small capacity storage battery and a low-current or trickle charger in combination. This arrangement is, frankly, an ingenious means of always having a fully charged storage battery available, but it is not a true A-eliminator. It requires the use of distilled water and making sure that the battery is kept up to the proper level of charge. Furthermore, the current costs on this form of socket power adaptation actually run high—about \$1.00 per hour.

ENGINEERING PROBLEM
From the standpoint of practicability, then, the series-connected filament arrangement, operated by high-voltage, low-current rectifier and filter, is the obvious solution. This goes to come into line with the 201-A type tube, just as it has already met with considerable favor for the 192 type tube. However, the filament-rectifier cannot be used for the 192 type tube. The current required by the 192 type tubes connected in series to the 200-milliamperes filament arrangement is more than a large one, requiring no mean degree of engineering skill to make these lines this fall.

In the matter of series-connected filaments, the matter of current regulation assumes new proportions. Ordinary series-connected filament cannot handle the necessary current for long. To meet the new requirements, therefore, larger and heavier variable resistors have had to be developed.

Different engineers have various views regarding the control of current in the series-connected filament. However, a logical location for the heavy-duty variable resistor is in the filament line in series with the transformer primary, or functioning as a line voltage regulator. This permits of adjusting the filament current to proper point with a given line voltage, together with adjusting the resistance values for the various plate circuits. The line voltage can always be brought up or down, as the case may be, to that predetermined value, and it is desirable to employ variable high resistance for the voltage tap of the B-supply end of the outfit, inasmuch as the values change with the shifting of tubes and other alterations. Variable resistors should be employed for regulating the detector and r.f. plate voltages, as well as obtaining the grid bias voltage for the power tube.

The handling of real current of the order of one-fourth-ampere at 300 volts the need for variable resistors capable of standing up under heavy loads becomes more and more apparent. In many instances the variable high resistance can be obtained by means of a variable current load. However, the compression type of variable high resistor has proved practical for this new and unusual service.

BANQUET COMMITTEE TO MEET
The organization meeting of the committee for the fourth annual radio industries banquet will be held at the Stevens Hotel on Wednesday, June 15, at 8 p.m. The banquet will be held at the Stevens Hotel on Wednesday, June 15, at 8 p.m. The banquet will be held at the Stevens Hotel on Wednesday, June 15, at 8 p.m.

MIXED TIME SCHEDULES FOR TWO NETWORKS CLEARED UP
With daylight-saving time in effect in many of the centers of population and standard time being continued in the rural sections of the country, confusion may be found in following the broadcasting schedules of the various blue network stations. WJZ, the station of the blue network, operates on eastern daylight-saving time, as do WJZ-WJZ, Boston, Springfield, and KDKA, Pittsburgh. All of the other stations of the blue network operate on different time standards from that of the key station. The confusion may be cleared up by the following: WJZ, the station of the blue network, operates on eastern daylight-saving time, as do WJZ-WJZ, Boston, Springfield, and KDKA, Pittsburgh. All of the other stations of the blue network operate on different time standards from that of the key station.

STATION TO BE BUILT IN SPAIN
The Compagnia Radio Argentina, an Argentine company operating in Spain, has been authorized to operate a short-wave radio service with American countries by the Spanish government, according to advice to the Department of Commerce from Madrid. A new radio station will be built by this country in Spain within nine months. It will revert to those who are particularly interested in the state of the art of radio, and the Spanish government may take control in case of war or emergency. The project will be given by the government, but a tax of 20 centimos per word transmitted will be collected on messages to American countries, except to Argentina where the tax will be 10 centimos.

Volume Control Latest Problem in Radio Circles
Fullerton Firm Wins IN CONTEST
Goodson Radio Company Gets First Prize in Window Trimming Competition

From a field that included practically every Atwater Kent radio dealer in all of the larger communities in Southern California, the Goodson Radio Company of Fullerton has been awarded first prize in the "Pooley Cabinet" window trimming contest. It was announced by Ray Thomas, distributor of Atwater Kent radio in Southern California.

"Although many pictures of window displays in the contest were received and studied by the judges, it was the unanimous opinion that the Goodson Company's window display was the most artistic and effective. The window display was a masterpiece of window trimming, and it was a masterpiece of window trimming.

New Radio Body Favored
The movement for the creation of a permanent Federal communication commission is gaining force. It is based upon the ideas of Senator Watson of Indiana and Congressman Davis of Tennessee, the all interstate means of communication, like transportation, should be under the control of a Federal board something like the Interstate Commerce Commission.

One plan is to amend the recent radio act extending the scope of the permanent radio commission, and making a permanent body to supervise and regulate all matters relating to radio, telephone and telegraph communication between the States. The present radio commission is active for a year and then becomes an appeal board.

Congressman Davis has always advocated a communication board and Senator Watson of the Senate Interstate Commerce Committee is reported planning to introduce a bill along these lines this fall.

The Chicago Association of Commerce will present a plan for making permanent the Federal Radio Commission and extending its jurisdiction at the sessions of the United States Chamber of Commerce in Washington this week.

FREQUENCIES MUST BE KEPT STANDARD
Under a recent order of the Federal Radio Commission all stations must maintain standard frequencies, varying not more than one-half a kilocycle from their assignments. The Department of Commerce has been requested to notify its field agents to report promptly any apparent violations. Maintenance of standard frequencies within the limits prescribed is the duty of each radio broadcast station, and violations of the order will be considered by the Federal Radio Commission as cause for revocation of license under Section 14 of the Radio Act of 1927.

To facilitate the execution of this order, each radio broadcast station has been directed after Monday, the 9th inst., to announce twice daily, at the beginning and end of its program, that it is broadcasting on such and such a frequency, and to include the frequency of its station in its call letters.

PRICES UP IN NEARLY ALL MARKETS
Stocks and Bonds Advance Under Stimulus of Easier Money; Wheat Also Gains

NEW YORK, May 7. (AP)—Bullish tendencies predominated in all of the principal securities and commodities markets this week.

Stock and bond prices moved up under the stimulus of easy money and the abundance of funds seeking investment. The average of twenty leading industrial stocks, touched a new peak for all time today, and the average of twenty leading bond prices, touched a new peak for all time today.

Wheat prices rallied briskly in reaction to a better export demand, coincident with reports of smaller shipments of the commodity from the United States.

Eleven issues of local bonds due on sale shortly. Eleven public improvement and school district bonds, aggregating approximately \$5,000,000, are scheduled to be sold to investors during the next three weeks, according to a compilation furnished yesterday by the State of California.

NEW RAIL ROUTE PLANNED

Linking of Burlington, Western Pacific and Others Rumored; Moffat Tunnel Key

BY EARLE E. CROWE
For the first time the West is interested in the rumors of plans for the remodeling of the railroad map. The Van Swearingen of Cleveland, Leonor P. Loree of the Delaware and Hudson, and the heads of the Great Northern and Northern Pacific have all placed proposals before the Interstate Commerce Commission involving the regrouping of railroads, but none of these projects has affected the lines serving the Pacific Coast and the Western States.

The Southern Pacific, the Santa Fe and the Union Pacific are the existing transcontinental lines. The new route, as it is outlined in the reports from the East, will offer serious competition for the distance between the West and the East. Actual opening of the fourth line will probably precipitate a period of intense rivalry for freight and passenger business between the Coast and Chicago.

Links in the projected route are the Western Pacific, Denver and Salt Lake, and the Burlington. Arthur Currier James, president of the Western Pacific, is reported to be holding a similar position with the Santa Fe and the Union Pacific. The Santa Fe is the controlling influence in the Western Pacific, which is a half-interest in the Denver and Salt Lake, and is also a director and influential interest in the Burlington. By this route the distance between the Pacific Coast and Chicago is 2533 miles, and Denver is 277 miles shorter than the present route.

As the key to the proposed Denver route, the Moffat tunnel, which cuts through the Continental Divide, is the key to the proposed route. The tunnel is 1.5 miles long, and is the key to the proposed route. The tunnel is 1.5 miles long, and is the key to the proposed route.

Eleven issues of local bonds due on sale shortly. Eleven public improvement and school district bonds, aggregating approximately \$5,000,000, are scheduled to be sold to investors during the next three weeks, according to a compilation furnished yesterday by the State of California.

HOME LOAN VOLUME AT HIGH POINT

Total Applications Reach Record Mark for Security Housing Company

Reflecting the increased demand for loans with which to build and finance homes and income properties, the Security Housing Corporation reports that during April, last, applications for the company's \$5,000,000 loan were received at a high point. The company's volume of applications was a record for the company.

When January opened this year with a total application volume of \$4,500,000, we thought the peak had been reached. But the company's volume of applications was a record for the company.

Reports from our other offices, located in San Diego and San Francisco, show similar relative increases in business. The cycle of prosperity in the mortgage market is being sustained, if the index of mortgage loan applications is to be accredited, as we believe it should.

Utility Report Reflects Local Trade Activity. Evidence of continued industrial activity in the territory served by the Associated Gas and Electric System is reflected in the report for the twelve months ended March 31, showing gross earnings and other income of \$20,000,000. This compares with \$18,000,000 for the same period of the previous year.

Operating expense, maintenance, all taxes, etc., amounted to \$16,000,000, compared with \$14,000,000 for the same period of the previous year. Net earnings after these deductions amounted to \$4,000,000, compared with \$4,000,000 for the same period of the previous year.

Dividend requirements for the Class A priority stock amounted to \$2,000,000, leaving \$2,000,000 for the Class B common stock. The dividend for the Class A priority stock was \$2,000,000, and the dividend for the Class B common stock was \$2,000,000.

EGG PRICE HELD DUE FOR UPTURN AT EARLY DATES

An increase in the price of eggs is in prospect during the current month and another boost may come early in the summer, according to a statement made yesterday by F. R. Williams, former secretary-manager of the Southern California Poultry Producers' Association.

Williams, who is now holding a similar position with the Southern California Poultry Producers' Association, is reported to be holding a similar position with the Southern California Poultry Producers' Association.

UTILITIES LEAD PRICE ADVANCE

Stock Gain Despite Week-end Profit-Taking

NEW YORK, May 7. (AP)—The main price tendency in today's brief session of the stock market was again upward, despite sporadic bear selling and week-end profit-taking. Investors' rally and public utilities were prominent in the upswing, which lifted more than a score issues to new peak prices. Trading was in heavy volume for a half-day session.

The increase of over \$100,000,000 in stock-exchange volume, since last month was a record for the market. More attention being paid to the arrival of annual shipments of \$600,000,000 in French gold, speculators for the advance have been marking up their position on the theory that buying business will be maintained in fairly heavy volume, and that no stiffening in money rates is likely before the crop-moving season.

Buying of the rally was stimulated by the reports that the Van Swearingen of Cleveland, Leonor P. Loree of the Delaware and Hudson, and the heads of the Great Northern and Northern Pacific have all placed proposals before the Interstate Commerce Commission involving the regrouping of railroads, but none of these projects has affected the lines serving the Pacific Coast and the Western States.

FEDERAL BODY TO STUDY MARKET OF SOUTHWEST FIELD

In an endeavor to assist the Pacific Coast Department of Commerce yesterday, through Leonard S. Gary, district manager of the Bureau of Foreign and Domestic Commerce, a study of the market of the Southwest territory would be started immediately under the direction of John M. Hager, national director of market surveys, who has now arrived on the coast.

Mr. Hager has been sent to California to organize and start the work of the Southwest territory, which is a part of the Pacific Coast Department of Commerce. The study of the market of the Southwest territory would be started immediately under the direction of John M. Hager, national director of market surveys, who has now arrived on the coast.

THE CLEARINGHOUSE

News of Spring Street
Dr. Norman J. Silberberg of Berkeley, associate professor of economics at the University of California, and one of the founders of the Silberberg and Schaffer Economic Service, will speak on "Business Cycles" before the Western Statistical Association at the University of California at Berkeley, May 10.

Increased trading, particularly in the market for California bonds, has resulted in expansion of business by Akin-Lambert Company. To meet the situation, the company has enlarged in the Stock Exchange Building, three offices having been added to its suite. A new and larger clearinghouse has been installed, and quotations will be received by direct wire from the floor of the San Francisco Stock Exchange.

Woman Bank Trader
Miss Thelma Reine, who has been a trader in the San Francisco Stock Exchange for many years, has been elected to the position of vice-president of the Women's Bankers' Association of the United States.

Bank Vacancy Filled
W. P. Dolan, advanced by Santa Fe to Cur-Accountant Post, has been elected to the position of vice-president of the Bank of America.

LAND BANK PAYS FUNDS TO FARM LOAN APPLICANTS

REHABILITATION, May 7. (AP)—The Federal Land Bank of Berkeley reported today that during the month of April, 1927, it paid the total of \$750,000 to farm-loan applicants in the district covering California, Utah, Nevada and Arizona.

Two hundred and twenty-six applications for loans were received, covering the total of \$1,000,000. The number of loans allowed were 140. This made the gross number of loans allowed since the organization of the bank in 1917 total 14,000, representing in cash \$61,624,900.

The April loan applications received from each state and amounts they represented follow: California, 104, for \$445,100; Utah, 18, for \$54,800; Nevada, 16, for \$177,100; Arizona, 14, for \$61,300.

Applicants during the month received 193 farms or a total of 33,412 acres. The April loans made and the amounts they represented follow: California, 104, for \$445,100; Utah, 18, for \$54,800; Nevada, 16, for \$177,100; Arizona, 14, for \$61,300.

NEW YORK BOND PRICES

NEW YORK, May 7. (AP)—Although trading was rather heavy in today's session of the bond market, activity was confined to a handful of issues, a number of which scored material gains. There was a marked absence of the customary week-end profit-taking. Demand for investment issues, as well as for bonds of a semi-governmental nature, was keyed up by prospects of a long period of continued easy-money conditions, which were strengthened by the arrival of another shipment of \$5,000,000 of French gold.

Railway bonds of both the first and secondary grades were accumulated freely, new high prices for the year being attained by Northern Pacific 4s and 4 1/2s, Texas and Pacific 4s and 4 1/2s, and Erie convertible 4s, again in heavy demand, went up more than a point.

Brooklyn Union Gas 5 1/2s, debentures displayed outstanding strength, gaining 4 points to 181 1/2, a new high for all time. Other public utility bonds showed little change and industrial mortgages were inactive.

Buying of French government 7s, which made up a new high record of 104 3/4, and strength of Belgian and South American issues stood out in the foreign group.

Little attention was paid to the Federal government list, but prices moved fractionally upward.

The market for bonds of the Federal Reserve Bank of New York, 10 1/2s, 10 3/4s, 11s, 11 1/2s, 11 3/4s, 12s, 12 1/2s, 12 3/4s, 13s, 13 1/2s, 13 3/4s, 14s, 14 1/2s, 14 3/4s, 15s, 15 1/2s, 15 3/4s, 16s, 16 1/2s, 16 3/4s, 17s, 17 1/2s, 17 3/4s, 18s, 18 1/2s, 18 3/4s, 19s, 19 1/2s, 19 3/4s, 20s, 20 1/2s, 20 3/4s, 21s, 21 1/2s, 21 3/4s, 22s, 22 1/2s, 22 3/4s, 23s, 23 1/2s, 23 3/4s, 24s, 24 1/2s, 24 3/4s, 25s, 25 1/2s, 25 3/4s, 26s, 26 1/2s, 26 3/4s, 27s, 27 1/2s, 27 3/4s, 28s, 28 1/2s, 28 3/4s, 29s, 29 1/2s, 29 3/4s, 30s, 30 1/2s, 30 3/4s, 31s, 31 1/2s, 31 3/4s, 32s, 32 1/2s, 32 3/4s, 33s, 33 COMING

We have reason to believe that there is a decided upward movement ahead in the stock of Big Jim Mining Company listed on the local exchange and now at 40 cents.

That there is a considerable foundation for rumors of negotiations involving certain changes in this and other local mining companies is almost a gone conclusion. These changes, if consummated, might warrant \$1.00 a share. Big Jim is our belief.

Los Angeles has every reason to place faith in the management of the former Big Jim Mining Company. The company's former management has done a good job of the job of the company in a manner far as we can see, and to bring a similar effort. This success, in our opinion, is now to be realized.

If you are interested in Big Jim as a stockholder or as a prospective owner of the shares, we will be glad to give further details on receipt of coupon below.

COTTON MARKET

NEW YORK, May 7. (Exclusive)—The cotton market had a strong opening today with prices advancing 8 to 10 points from yesterday's closing. May sold at 18.75 cents; July, 18.85 cents; October of the new crop, 18.95 cents; and December, 18.85 cents, thereby equaling the high price reached on two days of this week.

Liverpool markets were strong, spots there closing 12 1/2 above yesterday's with middling at 8 7/8 and good at 9 1/8. Futures there advanced 7 to 11 points, and reacted on profit-taking, closing with a net advance of 1 to 2 points on the day.

The flood situation continues menacing and the statements by Secretary Hoover that conditions are the worst of any Mississippi flood on record and that it will take four to six weeks for the flooded areas to drain, attracted much attention.

This makes the new crop situation very uncertain, the sharp rise in prices of the last fortnight is considered fully justified in the trade, with the season's export likely to make the new high record of 11,000,000 bales and American mill consumption reaching 7,000,000 bales to leave no burdensome surplus to carry over.

So much profit-taking occurred in the late trading that prices for early gains and declined 10 points from yesterday's closing before the close. The market was off to 15.80 cents; July, 15.90 cents; October, 16.00 cents; and December, 15.85 cents.

TRAVEL BY SEA POPULAR HERE

Many Booking in City for World Cruises

Trans-Atlantic Patronage Also Increasing

Agent of Hamburg-American Makes Statement

Los Angeles now equals San Francisco and almost equals Chicago as a source of passengers for globe cruises and for trans-Atlantic travel, according to W. P. Montague, district passenger agent for the Hamburg-American Line.

Incidentally, that line's \$2,000-ton globe-cruiser Resolute is due the 12th inst., with 300 aboard, of whom almost a third are of Los Angeles. And she will gain forty more here when she sails the following day to resume the summer European run out of New York.

Los Angeles produces as many ship travelers, Montague said, as the combined areas of Northern California, Oregon, Washington, British Columbia, Alaska, Nevada, and Arizona.

Folk here, however, are dilatory in booking reservations, he said, and suffered in choice of accommodations accordingly. May and June bookings to Europe should be made in January and February, due to the vast increase in travel without corresponding increase in ships, but Los Angeles folk insist on spot action, he added.

That not all that way, however, was indicated in the number of special-trip parties booked here for Europe out of New York on a line of the line's trans-Atlantic liners. One consists of 128 German-Americans. Incidentally heavy Los Angeles bookings also have been made on the post globe cruise of the Resolute, which leaves New York January 7, 1928, and due in Los Angeles the following May.

NAVIGATOR OF SUMMER VISITORS IN ON LINE

The vanguard of the East-Coast tourist army, which descends each summer on California, arrived yesterday when the Hamburg-American liner Resolute, which left New York and Panama with 316 passengers, of whom 170 are from Los Angeles, arrived here.

Of the latter, fifty-five were from Central and South American ports, attracted by California's schools, by the allurements of Hollywood and the Latin colonies already here, including past-presidents of several republics.

Among the easterners were Mrs. C. McLaughlin, superior judge at New York; Richard E. Ernst, State Senator; and a number of other prominent figures.

Clara, a Liverpool riding master, and Mrs. M. Davitt, an actress of New York.

Excellent her corresponding sailing last year by 20 per cent, the liner Calypso departed at noon yesterday with 107 cabin passengers for Los Angeles.

Among the travelers was Rev. Dr. Walter Cate, bishop of St. Stevens Cathedral at Berkeley, Australia, returning after a study of educational methods here, which he said improved. Bishop Cate, who is a member of the Los Angeles chapter of the Knights of Columbus, San Francisco representative of the line, will leave tonight for a three-week swing through the Midwest in the interest of the June 4 sailing of the new liner City of Honolulu.

OMAR'S 'JUG' NOT ONE HE SANG ABOUT

Cult Brother Sings for Wilderness as Cell Door's Clang Routs Philosophy

OAKLAND, May 7. (Exclusive)—"A thingy-gown-a-verbable 'jug'." "A lot of bread, a jug of wine." "Can lead but to the Alameda County Jail."

"Ah wilderness were paradise—and how!"

—Modern Omar.

Russell Allen, who interpreted philosophy in Mrs. Gurney Wright's defunct sacred song, the title of "Omar's" philosophy in the Alameda County Jail for six months. He was sentenced by Superior Judge Gray to a charge of contributing to delinquency.

Testimony proved to the satisfaction of the jury that Allen, who was arrested in Los Angeles several weeks ago, was a philosopher who when he was 18 years old and a 17-year-old was a member of the "Omar's" philosophy in the Alameda County Jail for six months. He was sentenced by Superior Judge Gray to a charge of contributing to delinquency.

BALKAN TOWNS FLOOD

Rivers in Moravia and Silesia Leave Banks Following Heavy Rains

PRAGUE, (Czechoslovakia) May 7. (Exclusive)—Some lives have been lost in floods caused by the overflowing of rivers in Northern Moravia and Silesia after a long period of normal rain. A dozen villages have been inundated and a vast tract of country is under water. Railways have been cut in several places.

The damage is known to be considerable, but the full extent of the destruction and the exact number of victims cannot be learned until communications are restored.

Moravia and Silesia are in the central part of Czechoslovakia.

LONG BEACH MAN TAKES OWN LIFE

LONG BEACH, May 7. (Exclusive)—Coy W. Schlessler, 30 years of age, was shot and killed himself this evening at his home, 948 Mrs. Mary Avenue, in a fit of despondency because of failing health. He had been ill for several months and recently had become melancholy. He leaves a widow and two children. The body was taken to the undertaking parlors of Comer & Co.

CABLE WORK PROGRESS

The installation of 38,100 feet of telephone cable in the south section of the Alhambra telephone exchange has almost been completed by the Pacific Telephone and Telegraph Company. The work is being done by the company's own men and is expected to be completed in a few days.
